LOSS BY FOREST FIRES.

The forest fires which have just laid waste whole counties in Minnesota, Michigan and extended into Wisconsin, destroying many towns and making thousands of persons homeless, have focused the attention of both government and state forest officers on the enormous losses of forest wealth which will be checked up to the year 1908.

In the whole northern half of the United States throughout the vast territory extending from coast to coast, the reported destruction by forest fires has been terrific and it is likely that the year will go down as one of the worst in the last quarter century. It seems that no part of the country has escaped the work of the devastating flames. The latest disasters in Minnesota, Michigan, and Wisconsin are the worst of the many that have visited the lake States this year. Other sections have also suffered from forest fires during the spring and summer months, and the people of the Pacific coast, the Rocky Mountain and the New England States, and Canada have had a thorough, and in some cases, a continuous experience in fire fighting.

Officers in the United States forest service say that it is doubtful if this year's actual losses from forest fires in all parts of the country will ever be known, but it is certain that they will run up so high in the millions that the country will be startled when a compilation of statistics at the end of the season makes it possible to give even the most conservative figures. Suffice it to say, were all the timber burned up this year in all parts of the country converted into cash, it could provide for a good sized navy of first-class battleships.

The fires have done good in one way; they have focused the people's attention on the seriousness of the forest fire problem, practical foresters say, and have started a wide-spread movement in many states to check them by adopting rational systems of fire protection. Among thinking people there has been awakened an intense interest in throwing a better protection around the forests, which grow more important as a natural resource as the timber supply dwindles.

The government has had a lot of work in the fire fighting line on the national forests, but serious as the fires have been, careful patrol and the organization of a force to battle with the flames as soon as discovered has held the losses down to a point where they are utterly insignificant when one considers the fearful destruction which would have come about had there been no protection.

Although the fire menace has been serious in all sections, officers of the forest service estimate that the total cost of the forest fires on the national forests for the season, exclusive of the salaries of forest officers, will not be more than $30,000. This sum is small when it is remembered that it means fire protection for approximately 168,000,000 acres of national forests, less than two-tenths of a mile per acre. Progressive state fire wardens and forest officers, individuals and private corporations having large timber holdings have organized fire fighting forces along much the same line as the government in many cases, and in this way they have given protection to millions of acres of timber which might have been destroyed had it been left unprotected.

HIS FORTUNE TRULY TOLD.

"When you meet a small, slender, fair-haired girl of about 19 years, you will fall in love with her at first sight. If the first letter of her first name is E, marry her and you will alway be happy and prosperous."

So said a clairvoyant on the boardwalk at Atlantic City, two weeks ago, to John A. McRea, a wealthy commission merchant, of Toronto, Canada.

McRea, last night, at the Hotel St. Regis, New York, presented to a group of friends he was receiving a girl answering the psychic's description exactly, and explained: "I did it. This is my wife, Estelle. I have known her only two weeks, but I believe we will always be happy."

The reception was the farewell of Mr. and Mrs. McRea to the United States. They sail for England tomorrow on their honeymoon. Afterward they will go back to Canada.

OYSTERS BY THE BILLION.

"The time is surely coming when we will rely more on artificial production and culture of oysters than in obtaining them from natural sources," said Prof. L. K. Howren, of New Orleans, at the Eutaw House in Baltimore recently.

"Oysters can be produced by the millions more easily than any other sort of food product known to mankind, and, thanks to late scientific work, the process is simple and readily available. It is only a question of assisting nature by manipulation of the spawn. The tiny eggs of the female are put in sea water of the right temperature, mixed with the reproductive milk of the male, whereupon fertilization speedily ensues, and in a few hours the eggs are hatched. Thousands of young oysters will soon be floating about, and at the end of two days they will begin to form their shells.

"A system of pond culture such as is practiced in Europe can be easily put in operation, and miles of our low, swampy lands can be made a breeding ground for untold quantities of the delicious bivalve. Only think that two gallons of sea water will produce fully 5,000,000 young oysters, 90 per cent. of which can be made to reach maturity, and you have a faint conception of the possibilities of artificial production."

SATURDAY EVENING, SEPT. 12, 1908.

A DISPATCH from Washington to the New York Tribune says:

For the first time in the history of the republican party a systematic effort will be made to collect all the voters of that political faith who have places in Washington and send them home to vote. Henry M. Camp, president of the League of Republican State Clubs, has undertaken the work. Mr. Camp says there are 25,000 republican voters in the District of Columbia. Eight thousand are already enrolled in the lists of the various organizations, and his work will be to obtain promises from the other 17,000 that they will vote for Mr. Taft.

Why, the Tribune knows better than this, for at every presidential election for years past when there has been the slightest doubt of the success of the republican ticket every republican government office holder in Washington has not only been sent home to vote, but has been urged to make a contribution to help buy the election—and it has been only a few years ago that a refusal to dance up with the assessment meant a loss of position. But the activity shown now by the republican whips to get out the votes shows that the bosses are much concerned as to the political outlook.

CHESTER BEDELL, who in a book published in 1897, when he was seventy-one years old, denounced Christ as a myth and the doctrines of the church as heresy, is dead at his home near North Benton, Ohio. He was born in Sussex county, N. J. He was buried in the North Bergen Cemetery, near the great bronze statue which he caused to be erected several years ago, representing himself as having hurled the Bible to the earth and crushed the book with his foot. In one hand is the inscription, "Universal Mental Liberty." Bedell's book bore the title, "Twenty-one Battles Fought by Chester Bedell With Relations and Presbyterian Intolorance." He died without intimating a change in his views. Bedell should have profited by the fate of Voltaire. He started out on a similar crusade, and many years later the house in which he wrote his attacks on the scriptures became a depository for Bibles.

IT IS easy to see what Mr. Taft deems the pressing issue in the contest for the control of the government. To meet the desire of the nation he promises to call an extra session of Congress should he be elected president to deal with the tariff question. He does not say he will recommend a reduction of excessive rates of duty, although he is known to personally favor such reduction. He must have the stand-patter contributions to the campaign money chest as well as the votes the stand-patters can otherwise control. Besides, it is the representatives in Congress whom the people are to elect who will have the final say, no matter whether Bryan or Taft shall be the next president.

"Why discuss the tariff?" ask the republican campaigners; "both parties are pledged to revision." Why, certainly; but while one party wants to revise the tariff to cheapen the cost of living, the other party would revise it so that the trusts could fix for themselves "a reasonable profit." One party wishes to revise the tariff by reducing rates to a revenue basis. The other party would maintain prohibitory rates under the stand-pat plea of "protection" to already overfed and engorged industries.

THE harvests of 1908 will be well up to the average of the last ten years, and the high prices prevailing will give the farmer a fuller return than usual. The prosperity of the agricultural classes, scarcely affected by last fall's panic, continues unabated and unassailable—though of course the republicans put in a claim for its continuance.

THE Georgia legislature has laid a tax on the manufacture and sale of "near-beer." This seems to be an admission that the new non-alcoholic brew is filling the want caused by the disappearance of the real thing.

From Washington.

[Correspondence of the Alexandria Gazette.]

Because he "laughed derisively" at a superior officer, Private Charles J. Cotter, of the Fifth Infantry, now in Cuba, will have to do some hard work under confinement during the next six months. Cotter was tried and convicted by a court martial. The specific charge was that he laughed at his commanding officer, Captain Price, when the latter admonished him that his clothes were dirty; also that he "grinned in a disrespectful and derisive manner" when Corporal Tobin reproved him.

Mr. Percy T. Evans, of Warrenton, a well-known sporting and horseman and Miss Lucy Douglas, of Alexandria, came to Washington yesterday afternoon and were married by Rev. J. B McLaughlin, with a cab driver as the sole witness. Meeting Miss Douglas at the terminus of the electric railway line on Pennsylvania avenue, according to a prearranged plan, Mr. Evans drove with her to the City Hall procured a marriage license, hastened to the law office of Mr. McLoughlin where they were hurriedly married. They then left for the south on their wedding tour.

The West India hurricane continues to move in a northwesterly direction, and it is central this morning over the eastern Bahamas. The indications points to generally fair weather in the Middle Atlantic and south Atlantic States during tonight and Monday. The temperature will not change materially.

The "personal side" of the Pittsburg's sensational bank case, which brought charges of intoxication against Bank Examiner J. B. Cunningham when he unceremoniously closed the doors of the Cosmopolitan National, is to be entered by the comptroller of the Currency on Monday. Cunningham is en route here for a conference that will in all probability determine whether he will longer remain in the service. In view of the fact that the Comptroller's office fully approves and endorses the official act of the examiner in closing up the bank, Cunningham's friends are satisfied that he will come out of the muddle with clean skirts.

The State Department has received from Minister Dodge confirmation of the news of the capture by Honduran officials of Lee Roy Cannon, said to be an American citizen. Minister Dodge states that Cannon was captured in Honduras, not Salvador, as reported. He was taken from the Department of Valle to Choluteca for trial. Cannon is accused of assisting the Honduran revolutionists. The report that he has been sentenced to death is not confirmed.

Orville Wright's aeroplane, which broke another of its own records Friday by remaining aloft more than an hour and ten minutes, was given a careful overhauling today by the aviators and unless weather conditions change for the worse, will be put through its stunts again late this afternoon.

Virginia News.

Charles W. Edington, for many year the city sergeant of Fredericksburg, was stricken with paralysis this week at Atlantic City, and is in a very precarious condition.

Mrs. Adeline V. Pittman, of Caroline county, died at the home of her nephew, Thomas C. Valentine, the deputy clerk of the county, Wednesday last, after a long illness. She was seventy-three years old.

After eluding the law for a year, Harry Grant, a white man, wanted at Roanoke for the murder a year ago of John Willis, in a saloon, was yesterday taken to Roanoke from West Virginia and jailed. Grant hit Willis on the head with a beer bottle.

The first train on the Carolina, Clinchfield and Ohio Railroad, the new Ryan road from eastern Kentucky and southwest Virginia to the South Atlantic Seaboard, was run between Johnson City, Tenn., and Marion, N. C., a division just completed, this week. The distance is 99 miles.

Lee Strother, colored, was hanged at Madison courthouse yesterday for attempted criminal assault on Leola Fry, a young white woman. He made full confession and stated that the crime was his second one. There will be no more legal hangings in Virginia. Hereafter the electric chair will be used.

The spot on which Davy Crockett, frontiersman and warrior, was born near Bristol, has just been sold by Rush B. Strong, of Knoxville, to Benjamin Brabson, of Limestone, Tenn. Mr. Strong bought this property from its former owner twenty years ago. The place is marked by a huge stone, on which is carved the date of birth.

James T. Reed, assistant postmaster of the local office at Newport News, was arraigned before United States Commissioner Garrett yesterday on a warrant sworn out by Postoffice Inspector Robertson, of Washington, charging him with the embezzlement of $6,462 from the postal money order department. He waived examination and was held in the bond of $1 000 to answer to the United States Court in Norfolk.

There is no doubt that the three railways centering at Lynchburg are enjoying increased passenger and freight business compared with the traffic of three or six months ago. The local traffic in and out of the city is heavy, and practically all of the through trains are loaded down with passengers. Indeed, the condition is such on the Southern that railway men do not see how the company can much longer defer additional service to and from Washington.

The democracy of the entire state of Virginia will raise a campaign fund for Mr. J. Cloyd Byars, of Bristol, in his fight against Congressman Slemp, to redeem the Ninth district, which supplies the only republican representative from the state in Congress. As the situation is settled in other parts of the state and there is no doubt about the result, little will be needed for campaign purposes, and Byars will be backed by the democracy of the entire state. Movements to raise campaign funds for that district will be started in every congressional district at once.

Prof. J. C. Beahm, principal of the high school at Accident, Garrett county, Md., who was arrested Wednesday night at Accident, charged with a serious offense toward a 15-year-old girl, was tried at Manassas in the year 1901 on a similar charge. Prof. Beahm was principal of the Brentaville High School. He was convicted, and sentenced to five years in the penitentiary. Upon a new trial, however, he was acquitted. The two trials consumed more time and cost more money than any other criminal trial in Prince William county within the past forty years. After his acquittal, Prof. Beahm resumed his school work at Brentaville, but after a year or two moved to Accident, Md.

Mr. Bryan.

Cumberland, Md., Sept. 12.—William Jennings Bryan placed Wm. R. Hearst, sponsor of the independence party in his Annias Club as second member here today, for declaring that Bryan was worth a million. Last night in Atlanta, Ga., Hearst charged that Bryan, four months ago sent to him and offered him his support, for the democratic nominee in 1912 if in return he (Hearst) would support Bryan this time. Bryan positively characterized this statement as a deliberate lie here today. He intimated also that this was but another attempt to depart from the issues he had raised and try to distract the attention of the Voters. "If Mr. Hearst made any such statement as you quoted to me," declared the democratic candidate, "it is utterly and entirely false."

Mr. Bryan would welcome a joint debate on the issues of the campaign with Judge Taft but neither Mr. Bryan, nor Governor Jennings, of Florida, his campaign manager, believe Taft would consent. Even though he were willing they have reason to believe that National Chairman Hitchcock would prevent any such meeting. West Virginia and Maryland declared today to Bryan that he holds these two states safe.

Bryan read with interest the statements of James J. Hill of the Great Northern Railway and Medill McCormick, that republican managers must beatir themselves. His comment was "there are others who have been out west."

Baltimore, Md., Sept. 12.—Final arrangements were completed today for monster democratic meeting on Monday one at Annapolis and the other in this city. William Jenning Bryan is scheduled to speak at the capital at 2 o'clock Monday afternoon. The fifth regiment armory has been engaged to address the greatest outpouring of citizens that ever attended a political meeting in Maryland.

News of the Day.

The Protestant Alliance at the Eucharistic Congress at London is continuing its opposition to the appearance of the Host in the Sunday procession.

Commander Howard, of the Maryland fishery force, with five of his men, arrived in Sinepuxent Bay yesterday and boarded and examined six oysterboats, but made no arrests. No resistance was made by the oystermen.

The number of unemployed in London was strikingly shown yesterday, when 3,000 men surrounded and attempted to make their way into a hospital which had advertised for a porter at a wage of $4.50 a week and meals.

Harry Golbert, 12 years old, of Washington, yesterday, while riding a bicycle, ran into a wagon, and the rear wheels passed over his right leg, crushing the bone. Edward Hawkins, driver of the wagon, told the police he could not avoid the accident.

Williamsport, Washington county, was visited by a fire yesterday afternoon that at one time threatened the destruction of a large portion of the town, which is located along the Potomac river, six miles south of Hagerstown.

Mr. Charles McDonald, jr., the well-known grain inspector, who had been chief grain inspector of the Baltimore Chamber of Commerce for the last 17 years, died yesterday at his home in that city. He was 64 years old.

Frank Mowkosky, who accidentally shot himself, not far from Pen Mar Park, September 2, died yesterday at the Chambersburg, Pennsylvania, Hospital, his death being due to lockjaw. The bullet had passed through his lung and lodged in his chest.

Former City Collector Joseph S. Martin, for many years a leading democratic politican and adviser to the late Gov. Altgeld, was arrested in Chicago Thursday after a desperate encounter with Peter McLeod, a contractor, in which McLeod was stabbed twice and Martin was severely injured.

A decomposed body, supposed to be that of Albert Kelly, of Grafton, W. Va., who recently escaped from the insane asylum at Weston for the third time, has been found in the Muskingum river, near Marietta, Ohio. The clothing has been forwarded to the family at Grafton, and they will attempt to identify it as that of Kelly.

David Mishler, aged seventy-eight, was killed Thursday evening by a passenger train near Rockwood, Md., while he was driving over a crossing. His horse was also killed. It is said by eyewitnesses that the engine did not whistle until it was almost on the aged man. The rig was buried nearly fifty feet. The body was badly mutilated.

The last action of the democratic convention, of Pueblo, Colo., which adjourned at 3 o'clock yesterday morning, was to read former United States Senator T. M. Patterson out of the party. John A. Martin, of Pueblo, was nominated for Congress from the second district, and Charles B. Ward succeeds Milton Smith as State chairman.

A theft of negotiable bonds to the face value of $30,000 became known in Boston yesterday, when A. B. Turner & Co., brokers, gave out a list of the missing securities. The bonds were obtained by some person who, representing himself as a prospective purchaser, presented in payment for the bonds a certified check, which is alleged to be worthless, and disappeared.

Very few persons refuse an increase of salary of $500 a year, but Rev. Irving H. Berg, pastor of Catskill, N. Y., Reformed Church, has that record. In August Mr. Berg's congregation gave him a month's vacation. During his absence the church officers voted to increase his salary to $2,500. He had been receiving $2,000 and the use of the parsonage. When Mr. Berg returned he was notified of their action and immediately called a meeting of officers of the church and asked them to rescind the resolution increasing his salary and leave it at the old figure.

A young woman, who had been bound, gagged and strangled to death with a red automobile veil—possibly she had been stabbed, too—was found yesterday afternoon in the dining-room of the flat where she had lived on the fifth floor of the tenement at 315 east Forty-fifth street, New York. She was Mrs. Annie L. Mauro, a bride of two months. The police have been asked to arrest her husband, Dave Mauro, lately employed as a ticket chopper on the Third Avenue L road. He had not been seen since he left the house on Monday night.

An act of revenge on the part of an Italian laborer, because he considered he had been dismissed without cause, has cost the government of Baden the sum of $875,000. The government has been constructing a railroad tunnel through the Black Forest mountains, at Heidelberg, working in from each end to meet in the center. It was discovered yesterday that the two halves, which should come together at the village of Forbach, miss each other by 26 feet. The reason is a mistake in the survey, which arose from the purposeful misplacing of a surveying pin. This act was the work of an Italian who had a grudge against the government.

Collision in Fog.

Seattle, Wash., Sept. 12.—Seventy-five passengers were rescued from the steamer Sentinel after it had collided with the steamer Chippewa in a dense fog in Puget Sound today. A wild panic followed the collision.

The Sentinel was badly damaged, a great hole being torn in the side. Distress signals were sounded and the crew of the Chippewa manned their life boats and went to the rescue. Men and women were running about the decks of the Sentinel in wild confusion and many were about to leap into the water when forcibly detained by the Chippewa's officers. As soon as the Sentinel's passengers had been taken off the crew of the damaged vessel beached her west of Seattle. The water which had rushed into her hold had just extinguished the boats fires when she was beached.

The Forest Fires.

Duluth, Minn., Sept. 12.—With Grand Marais, a town of 1,500, on the north shore, partly destroyed and Beaver Bay, eighty miles away, also attacked by the flames, and a dozen smaller towns in great peril, it is apparent today that unless rain comes within forty-eight hours the entire list now being swept by forest fires is doomed to distruction. Among the larger places in peril are Colerain, Bovey, Nashwauk, Marble, Hibbing, Buhl, Big Bay, Chicago Bay, Cofton, Aurora, Mountain Iron, Benshall, Fort Williams, Ont., Hymers, Ont., Port Arthur, Ont., Cascade and Nutson. The Great Northern, Northern Pacific and all state railroads have fire trains out fighting to save property along the lines and protect bridges and stations. It is a battle in which all able bodied men throughout the threatened territory are taking a hand and hundreds are near exhaustion as a result of a week's struggle. The Copper, the Minnesota training ship, last night succeeding in removing many refugees from Grand Marias. The steamer America in response to an appeal from Governor Johnson has gone to Beaver Bay to rescue the people there. There is little hope of saving these towns.

The entire north shore is alive with wild animals of all kinds, driven out of the woods by the flames. Residents of small settlements also have deserted their homes and fled to the lake for protection.

The night scene along the shore is an awe inspiring sight as seen from the water, according to rescuers who were on the Copper. For a distance of more than a hundred miles the flames appear to be almost continuous. The roaring of the fire can be heard for miles. The great peat beds of Minnesota are ablaze.

Even while the flames are at work, provision is being made as rapidly as possible to relieve the suffering. In response to Governor Johnson's appeal $45,000 has been raised by the Duluth relief committee for the homeless refugees. The supply of provisions and clothing now seems to be ample.

The fires have now been burning for one week and are believed to be of incendiary origin. Ten towns and mining settlements, have been destroyed, and twenty towns are in imminent danger. The total fire loss is estimated at over $10,000,000; people homeless number about thirty thousand; and the property of seven railroads is in danger or damaged. Minnesota state troops are now on the scene.

Detroit, Mich., Sept. 12.—Clouds of smoke drifted down upon Detroit from the fire area in the northern part of the state this morning. The pall settled over the river more dense than fog.

Up in Lake St. Clair, giant whistles roared as warnings as vessels groped their way along the channel. It is so dark today that lights are burning in every office building and store.

Information from Port Huron says that navigation was suspended there because of the smoke and steamers have tied up.

Fires are raging through the northern part of the lower peninsula and several towns are threatened, but thus far no lives have been lost except in the upper peninsula.

Cleveland, Sept. 12.—A light northeast wind is blowing across this morning carrying with it a heavy film of smoke from the forest fires in Michigan. It is impossible to sight boats any distance from the shore and the entire business section of Cleveland is enveloped by the smoke.

Parade of Catholics.

London, Sept. 12.—Three thousand police will serve as a guard tomorrow for the big parade of Catholics. In addition to this troops will be held in readiness to rush to the scene upon the slightest show of disorder, and 20,000 Catholic laymen, not afraid to vigorously defend their rights, will be along the line of march.

The Protestant Alliance was unable to obtain an injunction in time to prevent the parade and the home office has refused absolutely to interfere in the matter. The alliance then appealed to the city police to issue an order prohibiting the parade but the police authorities, while admitting that the parade will be a technical violation of the law, announced that they would not only not interfere, but would go to the limit in offering every protection to the Catholics. The only recourse of the Protestant extremists now is violence, and should they attempt this one of the wildest scenes in the history of the city will undoubtedly result.

Many persons were injured last night in the crush at Albert Hall, where Cardinal Vannutelli, the papal delegate, blessed the thousands that poured into the great auditorium. The handling of the crowd was left to the Catholic boys' brigade and their inexperience in such matters resulted in a tremendous jam. Many persons fainted in the crush and it was a long time before anything like order could be effected. The reception was remarkable in many ways. The affection displayed by the people for the legate was of unusual warmth, greatly effecting the cardinal.

Suicides.

Pittsburg, Pa., Sept. 12.—With two bullet wounds through his head, the dead body of a man supposed to be Henry Clay Marshall, jr., of New York, a representative of P. W. Brooks & Co., investment bond brokers, of 115 Broadway, New York, was found lying in a field here near Stanton avenue. The body was warm when reached. Beside the corpse was a 32-calibre revolver with three full cartridges and two empty ones. In the man's pockets were cards showing he represented Brooks & Co., and across the top of one of his cards he had written: "Kindly notify P. W. B."

New York, Sept. 12.—At the office of P. W. Brooks & Co. it was stated that nothing was known of Marshall's whereabouts since he left the concern on July 1st. Before that time he was employed as a clerk, but resigned and went west on account of ill health.

New York, Sept. 12.—Frank Bennet, a Washington hotel keeper, committed suicide at the Gotham Hotel today, according to a report from the coroner's office.

Infernal Machine.

Philadelphia, Sept. 12.—An attempt to assassinate Governor Fort, of New Jersey, thought to have grown out of his persistency in closing saloons in Atlantic City on Sunday, was foiled here today by the local postoffice authorities when an infernal machine, addressed to the governor, was intercepted at the local postoffice. A suspicious package attracted the attention of the postal clerks, who caused it to be referred to the superintendent. The postal authorities decided to open it and it was found that the package was a bomb that would have exploded and killed the man who opened it. It was constructed of powder, nails and bullets, with matches so arranged that the unwrapping would have fired it.

Sea Girt, N. J., Sept. 12.—Governor Fort, when seen today at the executive residence at the Sea Girt parade grounds, said he did not care to talk about the alleged attempt on his life by means of an infernal machine. "The thing speaks for itself as far as I know," said the governor. Further than this he would not talk.

Killed by Explosion.

Chicago, Sept. 12.—Three persons are dying and five others are perhaps fatally burned following an explosion of gas and a fire early today in the building occupied by the Wall Adding Machine Company. Two of the dying, Miss Etta Oaks, and George Frost, were terribly burned. Miss Oaks' foot was torn off and Frost's eyes were blown out. William Weber is also dying. Others sustained serious burns about the head and body and it is feared several will die.

The explosion was caused by the accummulation of illuminating gas in the office vault. A jet in the vault sprung aleak during the night and when the vault was opened today the gas was ignited by a lighted match an employe was holding and exploded with terrific force. The victims, none of whom, except Miss Oaks, are over 16, were employed in a steel cage which surrounded the vault, assorting parts for adding machines. They were caught by the flash of the explosion. The building was partly wrecked.

Auto Race.

New York, Sept. 12.—Whirling around the Brighton Beach race track at a speed which is eclipsing all world's record, the contest being intermingled with terrific bursts of speed in the effort of the contestants to secure the lead, eight cars are being madly driven by their drivers in the twenty four hour race, which will terminate at 8:30 o'clock tonight. At the end of the 14th hour today, the Lozier car, driven by Mulford and Cobe, had wrested the lead from the Allen-Kingston car, and at that hour had covered 664 miles, twelve miles better than any previous record.

Harry Thaw.

Poughkeepsie, N. Y., Sept. 12.—Harry Thaw will be taken to White Plains on Monday and kept in jail there until his habeas corpus case is decided by Justice Mills. It was arranged here today that the prisoner should be transferred and Justice Mills signed the necessary papers for the transfer of the prisoner. The transfer was made on application of Sheriff Chanler, who, through his lawyer, E. E. Perkins, declared the prisoner's presence here demoralized the discipline of jail. Mr. Morscahuser said he was willing to allow the prisoner to be transferred to the White Plains jail.

Attacked by a Bear.

Berlin, Sept. 12.—Wilhelm Hagenbreck, of the famous animal training firm of that name, was injured today by a huge bear that he was attempting to drive into its quarters. His abdomen was ripped open by the enraged animal and his flesh torn and clawed in a dozen places. Attendants rushed to the rescue, but before they could drive off the bear, Hagenbreck had fallen unconscious from his terrible injuries. He was rushed to a hospital where it was said his injuries would likely prove fatal.

WASHING WITHOUT WATER

Is Like Trying to Get Rid of Dandruff Without Herpicide.

Did you ever see any one trying to wash themselves without soap or water?

If you did what would you say of him:

It is every bit as foolish to try to get rid of Dandruff and to prevent Baldness by feeding the germs which cause it, with Cantharrides, Vaseline, Glycerine and similar substances which form the principal ingredients of most so-called Hair Growers.

Newbro's Herpicide is successful because it attacks and kills the parasitic germ which feeds on the hair roots.

It is the original and only genuine scalp germicide manufactured.

The fire is now regarded as being beyond control. Women are carrying food to the men who are fighting the flames.

Great interest is manifested at the headquarters of both parties in New York over the election in Maine on Monday. Reports indicate the result is going to be closer than usual. The republicans claim 10,000 to 15,000 majority. Four years ago they carried the state by 28,000. The result is now in doubt.

Ten masked man entered the residence of John Ashton on the borough line near the Norristown, Pa., reservoir, early this morning, and after clubbing Ashton with a black jack until he was insensible, ransacked the house. The robbers did not attempt to molest Mr. and Mrs. Charles Mason who were also in the house.

The success attending the Eucharistic Congress reached its climax in London last night, when some 10,000 Catholics received the blessing at the hands of the legate. The reception was a most brilliant affair. There were no speeches, but the organist played selections throughout the function. Attorney General Bonaparte who has been spending the summer in Lenox, Mass., is today at his county seat, Glenarm, Baltimore county, Md. The attorney general announces that the government would take an appeal at once from the decision of Judges Gray and Dallas in the case of the commodity clause of the Interstate Commerce act in which that clause was held to be unconstitutional. The appeal will be made just as soon as the Department of Justice can prepare the papers in the case.

James J. Hill, chairman of the board of the Great Northern Railway, in New York, yesterday, discussed the political situation, saying that the farmers through the west never have paid much attention to Bryan until the last year or two, but that just now there is a strong Bryan sentiment among the farmers. He said that the democratic vote through the west will be larger this year than ever before, and that if the republican campaign managers do not put in the hardest kind of work Mr. Taft may be defeated.

St. Petersburg is threatened with the worst cholera source in its history as a result of the people's opposition to the sanitary and restrictive measures which the police and health officers are trying to enforce. A number of health officers have been mobbed by the ignorant people, who are unaware of the spread of the disease. Thoroughly alarmed at the outlook, the government today called out soldiers to aid the health authorities in their fight against the disease. There have been 40 deaths in St. Petersburg already and 250 cases are now under treatment.

Winston Spencer Churchill, formerly colonial secretary and now president of the British Board of Trade, was married in London this afternoon to Miss Clementine Hozier, daughter of the late secretary to Lloyds. All fashionable and official of London, flocked to St. Margarets, the little chapel adjoining Westminster Abbey, to witness the ceremony. It is barely a month since, after having his name coupled with those, of a large share of the heiresses in England and America, that it was announced that Mr. Churchill had persuaded the beautiful Miss Hozier to become his wife. The bride is considered one of the most beautiful women in London. She is 23 years old tall and slight. There were five bridesmaids. Hugh Cecil was best man.

A WONDERFUL SCIENTIFIC DISCOVERY.

A well known and prominent lady of Alexandria, who has not been in the best of health for several years, has given Dr. Bennett's remedies a test for her stomach disorder.

The results have been more satisfactory than she or any of her friends could have hoped for. The patient, whose name is omitted for modesty's sake, started taking Dr. Bennett's New Life and after a few doses it was well known that she was suffering of what is commonly called tape-worm.

The husband of the sick lady called on Dr. Bennett and purchased a bottle of his special tape-worm remedy. The medicine was given Friday morning about seven o'clock and before noon a great mass of living tissue passed from the system in the form of vile hideous tape-worms.

After working patiently and carefully for many minutes, to the surprise of all interested parties, the doctor included, three full grown tape-worms were separated from the mass. One of these worms came from eating beef stake, and the other two came from eating pork steak. That is, the food was not well cooked.

Dr. Bennett says: "I have known of a few cases where there were more than one worm removed from the system at one time but this is the first case that has ever come before me where there were the two species living in harmony and contented with the same abode."

Dr. Benpett says: "Many people have called to see these remarkable worms that jointly measure nearly two hundred feet. I expect to pickle these worms and get the permission of some local druggist to display them in a show window for a few days and then probably for the sake of science I will present them to the Smithsonian Institute, Washington, D. C."

TO IMPROVE UPPER KING STREET.

A meeting of the Supervisors of Alexandria county was held at Spring Park yesterday evening. There was present the full board, composed of Messrs Febrey, Corbit and Duncan, Clark, George H. Bucker acted as secretary. In addition there were present Messrs. Duke and Dare, representing the Southern road; Messrs. C. O. Leadbeater (on behalf of Mr. E. S. Leadbeater), H. K. Field and City Engineer Dunn, representing the city; Mr. Chester, president of the Rosemont Company, and Messrs. Leadbeater, Slaymaker and Wedderburn of George Washington Monument Association.

Mr. Duke submitted plans and estimates for improving the streets from the corporation line to Mt. Vernon Avenue, Rosemont, and explained various plans. Mr. Dunn presented a clear, concise an excellent statement showing the necessity for vitrifying King street and widening Hooff's run bridge to 60 feet. The estimated cost, of the entire work as advocated by Mr. Dunn was about $13,000. The matter was carefully gone over and the following resolutions were adopted:

At a meeting of the Board of Supervisors of Alexandria county, held at Spring Park, Sept. 11, at 3 o'clock, it was decided that plans for improvement of King street extended, as outlined in a letter of Mr. Duke of August 18 to Mr. Duncan in answer to his letter dated August 15th, 1908, suggesting division of cost of said work, be approved as follows:

Washington-Southern Railway.....	$2,400
Alexandria county.....	2,000
Mt. Vernon Electric Railway.....	658
Total.....	$5,058

Resolved, That Mr. Garrett, county surveyor, and Mr. Dove, superintendent Washington-Southern Railway Co., be requested to draw up specifications for the work; the same to be done by the county at the earliest possible date provided the Washington-Southern and the electric road agree to bear, each, the proportionate cost of the same as above.

Resolved, Further the question of widening Hooff's run bridge be deferred for future consideration. On motion of Mr. Duncan the above was adopted.

It is to be regretted that Mr. Duncan's suggestions were not adopted as it may be only a few years at the farthest when the city limits will be extended and King street will have to be vitrified from the present limits to the park.

It had been understood that Mr. Duke some time ago had promised to use his influence in having a granolithic sidewalk laid from the city limits to the new Union station and also to have a permanent vitrified brick roadway built between these two points. It is to be regretted that this will not be done.

BAD BOYS.

Some boys living in the immediate vicinity of Washington, Wolfe and Wilkes streets, are tearing to pieces a piece of property, 419 south Washington street. The iron fence has been broken and blinds torn off. Someone should have power enough to put a stop to this unlawful proceeding.

PLEASANT TRIPS.

As will be seen by an advertisement elsewhere, the steamer Charles Macalester, commencing tomorrow and continuing every Sunday during the month, will make a trip of forty miles down the river, stopping here at 3 o'clock and returning at 7:30 p. m. CASE DISMISSED.

Among the cases before the Police Court this morning was that of a man named Duke Daniels, who lives in the neighborhood of Bailey's cross roads, who was charged by a huckster in market with conducting business without a license. It was alleged that he went to Washington yesterday and purchased cabbage which he was selling in market this morning. The complainant said he was present while the cabbage was being placed in a wagon. Daniels, however, denied the charge, and as the plaintiff had not traced the cabbage to this city, there was no evidence to base a conviction, and the accused was dismissed. It has long been believed by many that countrymen bring considerable produce, which they do not grow, to this market; or, in other words, that they buy butter, eggs, chickens, &c., and carry on huckstering without paying a license. The market master should look into the matter.

CASE CONTINUED.

William Phillips was arrested yesterday by Chief Goods as he was nearing Washington on the charge of stealing a horse and buggy belonging to Mr. C. S. Elliott, of this city. The horse and buggy were standing in front of Mr. Elliott's place of business, when Phillips, who was under the influence of liquor, came along. He got into the vehicle and drove away. Chief Goods, upon being notified, procured a horse and buggy and started in pursuit of Phillips. He soon overtook him and brought him and the stolen property back to this city. Phillips was brought before the Police Court in this city, and after the evidence against him had been given he said he had no recollection of his actions yesterday, as he was drunk. Justice Caton sent Phillips, to the grand jury.

DEMOCRATIC MEETING.

Tonight at 8 o'clock there will be a meeting of the Bryan, Kern and Carlin Club at Sarepta Hall. A subcommittee consisting of Messrs. R. D. Brumback, S. P. Fisher, E. E. Lawler and R. S. Barrett was appointed by President S. G. Brent yesterday to formulate rules for the government of the club. In addition to the business transacted at the meeting at the office of Col. F. L. Smith this afternoon the report of the subcommittee on rules will be acted upon. It is expected that the president will, with the assistance of the executive committee, name additional committees for the different wards in order to expedite matters and push the work. The members are taking an active interest and great results are expected.

SUPPOSED THIEF.

Detective Cole, of the Fourth Precinct of Washington, who has been at work on the various cases of theft which have occurred at Potomac yards, yesterday came to this city and secured the services of Officer Sampson from police headquarters and the two arrested Ike Gibson, colored, on suspicion of being the thief. A coat answering the description of one of the articles stolen was found in his possession. Chief Goods accompanied Gibson to places in the northern section of the city today in the hope of finding some of the stolen property. A number of robberies have occurred at the Potomac yards in the last three months and it is thought that a leader has been caught.

Later the officers succeeded in securing many of the stolen articles from colored persons to whom Gibson had sold them. Gibson was locked up in the station house.

A NEW STREET.

While in the city yesterday Mr. Duke, of the Washington Southern Railway, held a conference with Superintendent Dove of his road and Messrs. Wedderburn and Slaymaker of the Monument Association in relation to straightening the line of their property and the railroad and of opening a street from King street extended to the Duke street bridge. Mr. Dove was requested to ratify the survey made by Engineer Howell and also submit an estimate of the cost of opening said street which will add greatly to the convenience of the people and the beauty of the park.

POLICE COURT.

[Justice H. B. Caton presiding.]

The following cases were disposed of this morning:

Two men, charged with racing horses in the streets, were dismissed.

William Phillips, charged with stealing a horse and buggy belonging to Chas. Elliott, was sent on to the grand jury.

A white man, charged with being drunk in the street, was fined $5.

Charles E. Gibson, colored, charged with drunken and disorderly conduct, was fined $5.

Duke Daniels, charged with conducting business without a license, was dismissed.

Isaac Gibson, charged with committing an offense in Washington, was held for the authorities of that city.

THE MARKET.

There was an abundance of seasonable country produce in market this morning, but prices of most articles were unchanged. Butter was selling at 25 and 30 cents per pound. Eggs were still firm at 28 cents a dozen. Tomatoes were plentiful at 60 cents a box. Apples, pears, peaches and other fruit were in abundance. Most of the better varieties brought good prices.

THE AIRSHIP.

Orville Wright established a fourth world's record with his aeroplane yesterday afternoon at Fort Myer, when he remained aloft for 1 hour, 10 minutes, and 26 seconds. He was the same modest and unruffled gentleman as before when he alighted and received the congratulations of the army officers and other friends who were gathered to witness the flight.

AGAIN IN THE TOILS.

A well known tailor of this city, is again in durance vile and was locked up in the police station last night. He fights the battle with and against the tyrant "booze" but it throws him every time. He is a good mechanic and is today in a pitiable condition.

Just a little Cascaswcet is all that is necessary to give your baby when it is cross and peevish. Cascaswcet contains no opiates nor harmful drugs and is highly recommended by mothers everywhere. Sold by W. F. Creighton & Co.

AN ATTEMPTED HOLD UP.

Ed. Wells and his brother, of Fairfax county, hired a team from a livery stable Thursday night to go to a dance at the home of Mr. Edward Tyler, about three miles from Manassas. Oscar Powell, jr., a Manassas negro, was engaged to drive the team. While at the dance Mr. Wells became intoxicated, and in the presence of Powell exhibited a roll of bills. After leaving the scene of the dance at an early yesterday morning, and proceeding a short distance toward Manassas, Powell stopped the horse and, drawing a revolver, jumped out of the vehicle and demanded Wells to hand over his roll. Instead of doing so Wells sprang from the wagon and grappled with Powell, and in the struggle which ensued Wells was shot, the ball taking effect in the right leg above the knee, making a very painful though not a dangerous wound. After firing the shot Powell made his escape, and has not yet been apprehended.

HELD FOR THE GRAND JURY.

George Powell, colored, who was arrested near the Gum Springs camp meeting grounds, in Fairfax county, about two weeks ago and fined $20 and costs for selling liquor without a license, was arraigned before U. S. Commissioner R. P. W. Garnett this morning to answer a charge of violating the internal revenue laws. After an examination Powell was held to await the action of the U. S. grand jury and committed to jail till he could furnish bail in the sum of $200.

SWIMMING POOL.

The committees on the proposed gymnasium and swimming pool of the Young Peoples' Building of the M. E. Church South having decided that the bids of Contractors J. D. Knight and Thomas Nelson called for more money than they calculated for, they have decided to make a change in the plans and these two gentlemen will be again asked to make estimates.

MUSICAL.

A very pleasant time was spent Friday evening at the handsome residence of Mrs. J. J. Riley, on Pitt street, by the younger set of Alexandria, at a musical and dance given in honor of her beautiful and accomplished niece, Miss Willie May Donohoe, of Washington. The house was tastefully decorated with palms and cut flowers. Covers were laid for 60 guests, and a very elaborate supper was served.

MAN KNOCKED DOWN.

A young man was knocked down at the corner of Princess and Lee streets last night by four soldiers who were camping with the cavalry on the fair grounds. The young man reported the fact to the station house and an officer was sent to arrest the offenders, but they had escaped. But for the arrival of another young man the soldiers would have beaten him badly, it is thought.

BRYAN TO SPEAK AT ANNAPOLIS.

Hon. W. J. Bryan will speak from the Capitol steps at Annapolis, Md., on Tuesday afternoon at 2 o'clock. A special train to carry about 40 Alexandrians who want to hear him will leave this city about midday of Tuesday. It will be decorated with flags and bunting.

GAVE BOND.

As was stated yesterday attachment proceedings were instituted by the Colonna Marine Railway Company, of Norfolk against the steamer Trenton for debt. Papers were placed in the hands of Deputy Marshal Glover by Commissioner Garnett in this city, and Mr. Glover proceeded to the wharf and awaited the arrival of the steamer. The Trenton did not stop and the deputy marshal returned to his office. Last night bond in the sum of $5,681.58, representing twice the amount of the alleged debt, was furnished by the company, through Clerk of Court N. S. Greenaway, representing the United States Fidelity and Guaranty Company, of Baltimore. The bond has been approved, and the steamer Trenton will not, therefore, have the attachment papers served on it. President Taylor was in the city last night and completed the arrangements for the filing of the bond.

A Deal in Gum.

Some of these little newsboys are resourceful little mites. A day or two ago a business man dropped a silver mounted fountain pen through the grating in front of a building on West Third street. They told him in the store that there was no access to the hole from the inside. He seemed to be up against it. Two newsies saw him peering down into the grating and got interested.

"I'll git it out fer you, mister," spoke up one of them, "if you'll stand the expense. It'll take about a nickel's worth o' chewin' gum."

The man said he would finance the gum scheme, whatever it might be.

A minute or two later the boy had dashed into a store and got a yardstick. He was chewing hard on an entire 5 cents' worth of gum. As soon as this was properly softened by the process of mastication he placed it on the end of the yardstick, stuck the stick through the grating until the gum met the pen and brought the pen up with the utmost dispatch.—Cleveland Plain Dealer.

Sand Fish.

At low tide in midsummer on certain parts of the Breton coast men and boys with baskets and hoes descend the white beach to the sea's edge. They are anglers, but the fish they seek live on dry land. With his hoe each fisherman makes swiftly in the packed sand shallow parallel trenches, very close together and about a yard long. If the luck be good every scratch of the hoe uncovers three or four silvery fish, the size of sardines, that leap up glittering into the air. They must be seized quickly or at once they bury themselves in the sand again. They are called lancons. The smaller ones are used for mackerel bait; the larger, with their heads cut off, make fried, an excellent dish a good deal like fried smelts. With daylight tides the lancons are seldom bigger than a man's middle finger, but with the night tides, when promenaders have not disturbed the sand, they run very large indeed. Then, their lanterns flashing on the beach, the Breton fishermen often capture lancons a foot long.

Cut Heads.

The Liverpool Post has been making observations with regard to the "cut heads" which are treated at the hospitals between 12 and 2 a. m. The Post says that the house surgeons have noticed a curious difference in the sexes on different nights. On Saturday nights the subjects are mostly men who have received their wages, redeemed their clothes from pawn and drunk enough to lead to a brawl. Monday night, however, is "ladies' night." The men have gone to work, and the wives have taken their husbands' best and only suit to the pawnshop, and then it is their turn to drink the proceeds and cut one another's heads. The usual answer to the question "Who did it?" is, "Another lady wot lives in the same 'ouse."

Married Paupers and Divorce.

"An odd thing about married paupers is that they like to live separate," said a single pauper.

"You know how almshouses are arranged. There's a men's ward, a women's ward and a mixed or married ward. Well, the mixed ward is always nearly empty. Not that we lack married paupers. Oh, no. But the husbands prefer to bachelor it among the men and the wives to old maid it among the women. The older our married paupers get the more vehement is their insistence on separate living.

"'She's allus a-naggin',' the octogenarian will growl.

"'Nobody can't sleep o' nights with sech snorin' as hisn,' sniffs the septuagenarian female.

"And so they separate—to all intents divorced."—Philadelphia Bulletin.

A Great Financier.

A man who occupied a little back room in a poor quarter of the east end of London was evicted for nonpayment of rent. He had nothing but a valise and a few clothes, and while they were throwing him and his belongings out of the house a bulky manuscript fell out of his pocket. Nobody noticed it at the time, but after he had gathered his clothes and taken his departure one of the bystanders saw the big roll of paper, picked it up and on opening it was surprised and amused to find it contained an elaborate scheme for refunding the national debt of the British empire.

Knew His Rights.

"I fine you," said the police justice, "$30 and costs."

"Y'r honor," protested Tuffold Knutt, who had been hauled up for vagrancy, "all the prop'ty I've got in the world is a plugged nickel an' me clo'es, an' they hain't wuth more'n about two bits. That fine's onreasonable. It's confistication, an' it won't never stand the test o' the fed'ral courts. I shall take an appeal, y'r honor!"—Chicago Tribune.

The Negro and the Watermelon.

A negro bought a watermelon for 50 cents and sold it a few minutes later for the same price. The purchaser changed his mind and sold it back to the negro for 40 cents. Later the negro sold it for 60 cents. How much profit did he make?—New York World.

Saves Him.

"How did Sniggsley ever get his reputation for the possession of great wisdom?"

"His wife talks so much that he never gets a chance to expose his ignorance."—Chicago Record-Herald.

Life without liberty is joyless, but life without joy may be great. The greatness of life is sacrifice.—Ouida.

RICH MEN SUICIDES.

Two wealthy residents of Wilmington, Del., committed suicide yesterday by blowing out their brains, one with a revolver, the other with a shotgun.

Alexis J. Hart, aged 30 years, secretary and treasurer of the A. J. Hart Company, wholesale grocers, yesterday afternoon shot himself in the head with a revolver. He was married about three months ago. He and his wife were living at his mother's home, 701 Rodney street, during his mother's absence in Boston. Hart went to lunch at noon. His brother was waiting in front of the house in a carriage, and when Hart failed to appear his brother asked his wife to call him. Getting no response to her summons, she went to a third-story room and found her husband lying on the floor with a bullet hole in his head and the revolver by his side.

Edward Williamson, aged 58 years, a real estate owner, whose wealth is estimated at more than $100,000 yesterday afternoon committed suicide at his home, at Chestnut Croft, by blowing off the top of his head with a shotgun. Williamson had suffered a stroke of paralysis and he complained about spending so much money for doctors and a nurse while ill.

A Traveling Man's Experience.

"I must tell you my experience on an east bound O. R. & N. R. R. train from Pendleton to La Grande, Ore., writes Sam A. Garber, a well known traveling man. 'I was in the smoking department with some other traveling men when one of them went out into the coach and came back and said, 'There is a woman sick unto death in the car.' I at once got up and went out, found her very ill with cramp colic; her hands and arms were drawn up so you could not straighten them, and with a destitute look on her face. Two or three ladies were working with her and giving her whisky. I went to my suit case and got my bottle of Chamberlain's Colic, Cholera and Diarroea Remedy (I never travel without it), ran to the water tank, put a double dose of the medicine in the glass, poured some water into it and stirred it with a pencil; then I had quite a time to get the ladies to let me give it to her, but I succeeded. I could at once see the effect and I worked with her, rubbing her hands, and in twenty minutes I gave her another dose. By this time we were almost into La Grande, where I was to leave the train. I gave the bottle to the husband to be used in case another dose should be needed, but by the time the train ran into La Grande she was all right, and I received the thanks of every passenger in the car.'
